Dairy, Food and Environmental Sanitation

Index to Volume 18

AUTHOR INDEX

ADESIYUN, ABIODUN A., occurrence of clinical mastitis and antimicrobial residues on dairy farms in Trinidad, 83

AKKELIDOU, DINA, factors affecting quality and safety of freshly squeezed orange juice (fsoj), 14

ALVAREZ, VALENTE B., pH characterization of dairy wastewater related to cleaning and processing operations, 726

ANTUNES, ALOISIA JOSE, pH characterization of dairy wastewater related to cleaning and processing operations, 726

BAL'A, M. FARID A., attachment of *Aeromonas hydrophila* to stainless steel surfaces, 642

BARAKAT, REEM K., fast food on the information highway: electronic mailing lists: information exchange forums, 28

BARRETT, BETSY, hazard analysis critical control point training for foodservice operators in Kansas, 206

BEALL, GARY A., consumer response to pesticide/food safety risk statements: implications for consumer education, 278

BERNARD, DANE T., the role of prerequisite programs in managing a HACCP system, 418

BEUCHAT, LARRY R., spoilage of acid products by heat-resistant molds, 588

BLAKESLEE, KAREN, hazard analysis critical control point training for foodservice operators in Kansas, 206

BOOR, KATHRYN J., quality and stability of 2%-fat ultrapasteurized fluid milk products, 78

BRODSKY, MICHAEL, conference on the national food safety initiative: microbial data-implications for collections, analysis, and application, 842

BROWN, STEVEN, consumer response to pesticide/food safety risk statements: implications for consumer education, 278

BRUHN, CHRISTINE M., consumer response to pesticide/food safety risk statements: implications for consumer education, 278; Ivan Parkin lecture: communicating food safety to the consumer, 742

BRUHN, JOHN C., 3-A sanitary standards focus: a bridge to global food safety in the 21st Century, 360

BURMEISTER, J. E., barrier leat dip application during cold, windy conditions: *Staphylococcus aureus* colonization and teat skin health, 732

CHUREY, J. J., control of *Alicyclobacillus* in the juice industry, 585

CHUYATE, ROLENDA, *Alicyclobacillus*, – historical perspective and preliminary characterization study, 499

CLEM, LYLE, 3-A sanitary focus: basic sanitary criteria for food and dairy equipment, 834

COTTINGHAM, JOANNE M., emerging infectious diseases of particular relevance to environmental health professionals, 427

COTTON, LORI N., predominant microflora on catfish processing equipment, 650

CROCI, CLARA A., consumer opinions in Argentina on food irradiation: irradiated onions, 24

CURZIO, OSVALDO A., consumer opinions in Argentina on food irradiation: irradiated onions, 24

DEIBEL, KURT E., the role of prerequisite programs in managing a HACCP system, 418

DOLAN, MICHAEL, J., handwashing and gloving for food protection I: examination of the evidence, 814; handwashing and gloving for food protection II: effectiveness, 824

DUMMER, JANE, auditing your food safety system, 841

ELEFTHERIADOU, MARY, factors affecting quality and safety of freshly squeezed orange juice (fsoj), 14

FATHI, FATMA A., reliability of coliform bacteria as an indicator of postprocessing contamination in yogurt manufacture, 494

FENDLER, ELEANOR J., handwashing and gloving for food protection I: examination of the evidence, 814; handwashing and gloving for food protection II: effectiveness, 824

FORD, LISA T., consumer perceptions of HACCP and the price of meat, 735

FOX, LAWRENCE K., barrier teat dip application during cold, windy conditions: *Staphylococus aureus* colonization and teat skin health, 732

GHANI, S. ABD EL, reliability of coliform bacteria as an indicator of post-processing contamination in yogurt manufacture, 494

GILMORE, THOMAS M., 3-A sanitary standards focus: why have 3-A standards for rubber materials?, 90; a bridge to global food safety in the 21st century, 360; basic sanitary criteria for food and dairy equipment, 834

GOMBAS, DAVID E., HACCP implementation by the meat and poultry industry: a survey, 288

GRUNEWALD, ORLEN, consumer perceptions of HACCP and the price of meat, 735

HAGEN, CURTIS J., isolation of catalase-negative *Listeria monocytogenes* from foods, 424

HANLIN, JOHN H., spoilage of acidic products by *Bacillus* species, 655

HARWOOD, JAN O., consumer response to pesticide/food safety risk statements: implications for consumer education, 278

HOLAH, JOHN T., hygienic design: international issues, 212

HONTZ, LLOYD R., the role of prerequisite programs in managing a HACCP system, 418

INGHAM, STEVEN C., survey of coliforms and enterococci in retail swiss cheese: ramifications for choice of sanitation indicator organisms and enumeration method, 346

JAMILAH, IT D., attachment of *Aeromonas hydrophila* to stainless steel surfaces, 642

JONES, RHONDA D., the healthcare continuum: a classification model for topical antimicrobial products including those used in the food industry, 352

JONKER, JAMIE, measure MUN and evaluate dairy cow nutrition, 89

KOHN, RICK, measure MUN and evaluate dairy cow nutrition, 89

KREUZER, KAREN S., isolation of catalase-negative *Listeria monocytogenes* from foods, 424

LAGRANGE LOVING, ANNE, botulism in flavored oils – a review, 438

LAMP, CATHI L., consumer response to pesticide/food safety risk statements: implications for consumer education, 278

LEE, C.Y., control of *Alicyclobacillus* in the juice industry, 585

MALLER, ROBERT R., passivation of stainless steel, 294

MARSHALL, DOUGLAS L., predominant microflora on catfish processing equipment, 650; attachment of *Aeromonas hydrophila* to stainless steel surfaces, 652

MCKEMIE, KERMIT M., the good old days???, 146

MEER, RALPH, R., foodnet update: foodborne illness data, 830

MICHALAC, SHERRI, pH characterization of dairy wastewater related to cleaning and processing operations, 726

MILLS, VINCENT, 3-A sanitary standards focus: a bridge to global food safety in the 21st century, 360; basic sanitary criteria for food and dairy equipment, 834

MISNER, SCOTTIE, L., foodnet update: foodborne illness data, 830

MOBERG, LLOYD J., the role of prerequisite programs in managing a HACCP system, 418

MOLENDA, JOHN R., emerging infectious diseases of particular relevance to environmental health professionals, 427

MORTON, R. DALE, spoilage of acid products by butyric acid anaerobes – a review, 580

NAKIMBUGWE, DOROTHY N., quality and stability of 2%-fat ultrapasteurized fluid milk products, 78

NOLAN, MAIRE, factors affecting quality and safety of freshly squeezed orange juice (fsoj), 14

PARISH, MICKEY E., isolation and enumeration of sporeforming thermo-acidophilic, rod-shaped bacteria from citrus processing environments, 504

PARKS, KEVIN M., survey of coliforms and enterococci in retail swiss cheese: ramifications for choice of sanitation indicator organisms and enumeration method, 346

PAULSON, DARYL S., handwashing and gloving for food protection II: effectiveness, 824

PENNER, KAREN P., hazard analysis critical control point training for food service operators in Kansas, 206; consumer perceptions of HACCP and the price of meat, 735

QUANTICK, PETER, factors affecting quality and safety of freshly squeezed orange juice (fsoj), 14

ROMAIN, HELEN T., occurrence of clinical mastitis and antimicrobial residues on dairy farms in Trinidad, 83

SADEK, ZEINAB I., reliability of coliform bacteria as an indicator of postprocessing contamination in yogurt manufacture, 494

SAUER, KEVIN, hazard analysis critical control point training for foodservice operators in Kansas, 206

SCOTT, VIRGINIA N., the role of prerequisite programs in managing a HACCP system, 418

SINGLETON, EMMA R., isolation of catalase-negative *Listeria monocytogenes* from foods, 424

SLOAN, EDNA M., isolation of catalase-negative *Listeria monocytogenes* from foods, 424

SNYDER, KIRK, 3-A sanitary standards focus: why have 3-A standards for rubber materials?, 90

SNYDER, O. PETER, hand washing for retail food operations – a review, 149, updated guidelines for use of time and temperature specifications for holding and storing food in retail food operations, 574

SOFOS, JOHN N., isolation of catalase-negative *Listeria monocytogenes* from foods, 424

SPERBER, WILLIAM H., the role of prerequisite programs in managing a HACCP system, 418

SPLITTSTOESSER, D. F., control of *Alicyclobacillus* in the juice industry, 585

STANFORD, GWENDOLYN, consumer response to pesticide/food safety risk statements: implications for consumer education, 278

STEINBRING, YVONNE J., consumer response to pesticide/food safety risk statements: implications for consumer education, 278

STEVENSON, KENNETH E., the role of prerequisite programs in managing a HACCP system, 418

TURNER, BARBARA, consumer response to pesticide/food safety risk statements: implications for consumer education, 278

WALLS, ISABEL, *Alicyclobacillus* – historical perspective and preliminary characterization study, 499

WEBB, LLOYD A., occurrence of clinical mastitis and antimicrobial residues on dairy farms in Trinidad, 83

WILLIAMS, RONALD, A., handwashing and gloving for food protection I: examination of the evidence, 814; handwashing and gloving for food protection II: effectiveness, 824

WINTER, CARL K., consumer response to pesticide/food safety risk statements: implications for consumer education, 278

WISSE, CORNELIS A., isolation and enumeration of sporeforming, thermo-acidophilic, rod-shaped bacteria from citrus processing environments, 504

YAZICI, FEHMI, pH characterization of dairy wastewater related to cleaning and processing operations, 726

SUBJECT INDEX

3-A sanitary standards
- amendments, 790
- focus, 90, 360, 510, 834
- holder's list, 102, 531
- standards, 687, 697, 862, 867

Acid products, 580, 588, 655

Aeromonas hydrophila, 642

Air cleaning devices, 442

Alicyclobacillus, 499, 585

Anaerobes, 580

Antimicrobial
- residues, 83
- products, 352

Applied dairy microbiology, 445

Argentina, 24

Bacillus, 655

Bacteria
- coliform, 494
- rod shaped, 504
- sporeforming, 504
- thermo-acidophilic, 504

Bacterial foodborne outbreaks, 163

Barrier teat dip, 732

Basic sanitary criteria, 834

Book review, 31, 445, 660

Botulism, 438

Bridge, 360

Butyric acid anaerobes, 580

Catalase-negative *L. monocytogenes*, 424

Catfish
- processing equipment, 650

Century (21st), 360

Characterization study, 499

Cheese, 31
- Swiss, 346

Citrus processing environments, 504

Classification model, 352

Cleaning, 726

Clinical mastitis, 83

Coliform, 346, 494

Consumer, 742
